Key Takeaways

Metal labels are durable, customizable identification solutions ideal for labeling distribution boxes, control panels, and electrical equipment in harsh environments.

Overview

Metal labels are designed to provide long-lasting identification for distribution boxes, electrical panels, and industrial equipment. They are typically made from anodized aluminum or stainless steel, which ensures resistance to corrosion, abrasion, chemicals, and UV exposure. These labels are suitable for indoor and outdoor use, maintaining legibility even in extreme conditions.

Types and Features

Custom Printed Metal Labels: High-resolution digital printing allows for precise text, logos, and symbols. Protective topcoats enhance durability against wear and environmental damage. Embossed or Stamped Tags: Metal tags can be embossed, stamped, or laser-printed, providing a tactile and permanent marking option.

Adhesive-

Backed Labels: Many metal labels come with strong adhesives (e.g., 3M 300LSE) for secure attachment to flat or slightly curved surfaces. Bare Metal Tags: Can be attached using screws, rivets, or cable ties, offering flexibility for different mounting requirements.
