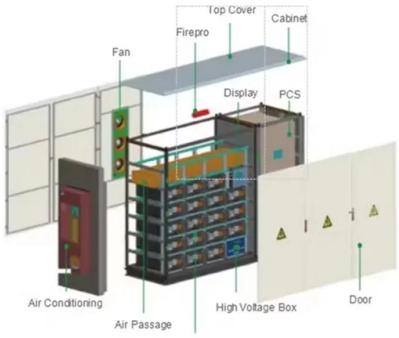
Central Asia Electrical Distribution Box Coating Manufacturer



Overview

Asiacolor manufactures durable and long-lasting powder coatings with anti-corrosion and decorative properties. Our coatings are ideal for treating complex metal surfaces.

Key Takeaways

Central Asia has several manufacturers and suppliers of coated electrical distribution boxes, including local Kazakhstani producers and international companies serving the region. Local Manufacturers in Central AsiaSP Bely Dom LLP: A Kazakhstan–Iran joint venture producing paints, primers, varnishes, and decorative coatings with an annual capacity of 40,000 tons and ISO 9001 certification, suitable for coating electrical enclosures.

KG

E Company: Based in Konaev, Kazakhstan, KGE manufactures powder-coated enclosures with matte, glossy, textured, and PVDF finishes, offering up to 20 years warranty and in-house lab testing.

COSOS Group LL

P: Supplies materials, equipment, and services for industrial painting, fireproofing, and insulation, including coated electrical boxes for oil & gas and industrial sectors.

International Suppliers Serving Central Asia

Vililong: Offers powder-coated steel distribution boxes made from high-quality cold-rolled steel with durable polyester powder coatings. Standard colors include RAL7035, RAL9005, and custom options. They provide consultation, prototyping, and mass production services.

Suzhou Zhuwei Electrical Equipment Co., Ltd.: Chinese manufacturer producing wall-mounted and IP68-rated junction boxes with durable powder coatings. Their products are exported to over 50 countries, including Southeast Asia and Europe, and they offer OEM/ODM services.

Zheliang B&

J Electrical Co., Ltd.: Located in Wenzhou, China, specializing in wall-mounted, floor-standing, stainless steel, and plastic distribution boxes with IP66–IP68 ratings. They hold TUV and CE certifications and supply global markets including the Middle East.

Gustav Hensel Gmb

H & Co.

K

G: Offers thermoplastic polystyrene and polycarbonate distribution boxes with IP65–IP67 protection, UV-resistant, halogen-free, and flame-retardant, suitable for harsh environmental conditions.

Key Considerations

Coating Types: Powder coatings (polyester, PVDF) and corrosion-resistant paints are common for durability and aesthetic finish. Protection Ratings: IP65–IP68 ratings ensure dust and water resistance for indoor and outdoor applications. Certifications: ISO 9001, CE, TUV, and RoHS certifications indicate compliance with international quality and safety standards.

Customization: Many manufacturers offer custom colors, sizes, and OEM/ODM services to meet specific project requirements. These manufacturers provide a range of solutions for industrial, commercial, and residential electrical distribution needs in Central Asia, combining local production capabilities with international quality standards.
