

A Explosion-proof Distribution Box Manufacturer

Overview

Explosion-Proof Distribution Boxes & Panels The explosion-proof distribution box safely delivers power in hazardous zones (oil, gas, chemical plants) Explor.

Key Takeaways

Leading manufacturers of explosion-proof distribution boxes include Atex Delvalle, Warom, R. STAHL, Supermec, and Extol International, offering certified solutions for hazardous environments. Key Manufacturers and Offerings

Atex Delvalle specializes in custom-made explosion-protected local control stations and distribution boxes. Their products are made from stainless steel (AISI 304L or 316L) and are designed for extreme temperatures and outdoor conditions. They provide ATEX and IECEx certified push buttons, switches, and control units, with fully configurable options to suit industrial needs . Warom manufactures a wide range of explosion-proof electrical equipment, including distribution boxes, lighting fixtures, control equipment, motor switches, and cable connectors. Their products comply with international standards such as IEC, ATEX, and IECEx, and are widely used in petroleum, chemical, marine, and mining industries . R. STAHL offers both standard and custom-made terminal and junction boxes for hazardous areas. Their products are certified for global installation and provide reliable energy distribution and connection in explosive atmospheres . Supermec produces ATEX-certified explosion-proof and flameproof enclosures, including distribution boxes and junction boxes. Their EJB and CSD series are designed for chemical plants, offshore platforms, and refineries, ensuring durability in highly corrosive and hazardous environments . Extol International supplies explosion-proof control panels and distribution boards with ATEX certification. Their products are available in stainless steel, aluminum, and cast iron, with IP42 to IP66 protection ratings, suitable for Zone 1 (21) and Zone 2 (22) hazardous areas .

Considerations for Selection

- **Certifications:** Ensure compliance with ATEX, IECEx, or other relevant international standards.
- **Material:** Stainless steel, aluminum, or GRP depending on environmental conditions.
- **Customization:** Some manufacturers offer configurable sizes, terminals, and operator options.
- **Application:** Choose based on industry requirements such as petrochemical, offshore, mining, or marine environments. These manufacturers provide robust, certified, and customizable solutions for safely distributing electrical power in hazardous areas.
