Feeder Fiber Optic Cable Quotation

Overview

Learn how to compare fiber optic cable quotations on the same technical, commercial and delivery basis.

Key Takeaways

Feeder fiber optic cables typically cost between $1 and $6 per foot, depending on fiber count, type, and construction, with quotations available from specialized suppliers.

Cable Overview

Feeder fiber optic cables are the backbone of FTTx networks, running from central access nodes to distribution points such as street cabinets or building entrances. They are available in single-mode (SMF) for long-distance, high-bandwidth transmission and multi-mode (MMF) for shorter-distance applications. Fiber counts range from 12 to over 1,700 fibers, with configurations including loose tube, ribbon, and mini cables for microduct installations.

Outdoor cables often feature UV-resistant, water-blocking, and flame-retardant jackets, with optional armored layers for harsh environments.

Pricing Factors

The cost of feeder fiber optic cables depends on several factors: Fiber Type and Count: Single-mode fiber costs approximately $0. 10–$0. 50 per foot, while multi-mode fiber ranges from $0.

30–$1. 00 per foot. Higher strand counts increase costs proportionally, with 288-strand cables reaching $6 per foot.

Cable Construction: Armored or direct-burial cables cost more ($0. 50–$5 per foot) than indoor riser-rated cables. Loose tube and ribbon designs are common for outdoor installations.

Installation Method: Underground or duct installations are more expensive than aerial or indoor runs. Pre-terminated Assemblies: Factory-terminated cables with connectors incur additional costs. Bulk purchases typically reduce per-foot costs by 20–40%, and working directly with manufacturers or authorized distributors can yield better pricing.

Requesting a QuotationTo obtain a formal quotation: Specify Requirements: Include fiber type (SMF or MMF), fiber count, cable design (loose tube, ribbon, mini), and intended installation environment (indoor, outdoor, aerial, or buried),. Contact Suppliers: Companies like Fiber4u allow online quote requests for fiber optic cables and network solutions. Microfocus and Alibaba also provide options for custom feeder cable quotations.

Include Additional Services: If installation, pre-termination, or testing is required, include these in the request to get an accurate total cost.

Summary

Feeder fiber optic cables are essential for high-speed network distribution, with prices ranging from $1 to $6 per foot depending on specifications and quantity. For precise quotations, provide detailed project requirements to suppliers such as Fiber4u, Microfocus, or Alibaba, and consider bulk purchasing to reduce costs.

Compare Fiber Optic Cable Quotations | Maplearashi

Learn how to compare fiber optic cable quotations on the same technical, commercial and delivery basis. Review cable construction, fiber type, drum length, Incoterms, freight, payment,

Feeder cables

Feeder cables are Fiber Optic Cables that run out from the Access Node up to the Fiber Distribution terminal. The number of fibers in the cable will depend on the build type.

Feeder cables

These cables are up to 50% smaller than standard loose tube cables and offer high fiber counts in a small cable diameter footprint. Our cable is available in fiber counts from 12 to 288 fibers in several

Fiber Optic Cables
