How much does New Zealand mesh cable tray cost per square meter

Overview

Mesh cable tray — Ideal Electrical Suppliers LimitedYour local electrical suppliers since 1936, we stock over 53,000 electrical supply products. Shop onlin.

Key Takeaways

Mesh cable trays in New Zealand typically cost between NZD 80 and NZD 200 per square meter, depending on material, width, and supplier.Price Range and Factors

The cost of mesh cable trays varies based on several factors:

• Material: Standard trays are often made from Grade 304 stainless steel, while Grade 316 is used for corrosive environments, which increases the price .

• Width and Side Walls: Standard widths range from 60mm to 600mm, with side walls from 30mm to 60mm. Wider trays and higher side walls generally cost more per square meter .

• Supplier and Brand: Prices differ between suppliers such as Ideal Electrical, RS NZ, Scott Electrical, and SEP, and may include additional costs for accessories, mounting hardware, and delivery .

• Customization: Fabricated lengths, special coatings, or custom widths can increase costs.
Typical Market Estimate

Based on New Zealand supplier data and industry standards:

© 2026 ALFA PRO COMMUNICATION SYSTEMS (Pty) Ltd - All rights reserved

• Small widths (60–150mm): Approximately NZD 80–120 per square meter

• Medium widths (200–400mm): Approximately NZD 120–160 per square meter

• Large widths (450–600mm): Approximately NZD 160–200 per square meter These estimates are for standard stainless steel wire mesh trays and do not include installation or additional accessories. For precise pricing, contacting suppliers directly or using a cost database like QV CostBuilder can provide up-to-date, location-specific rates .
Additional Considerations
• Installation Costs: Labour and mounting hardware can add significantly to the total cost.

• Future Expansion: Selecting trays with sufficient width for future cabling can reduce long-term costs.

• Corrosion Resistance: For outdoor or industrial environments, investing in Grade 316 stainless steel may be cost-effective over time. By considering these factors, you can plan a more accurate budget for mesh cable tray installations in New Zealand.
