Malta Low Voltage Cable Tray Price

Overview

Cable Management – BigMat MaltaAplus Trunking for Floor is a type of cable management system designed to protect and conceal cables running along the floor.

Key Takeaways

Low voltage cable trays in Malta typically range from €10 to €50 per meter depending on material, type, and supplier.

Types of Cable Trays

•

Metal Cable Trays: Usually made of galvanized steel or aluminum, these are durable and suitable for industrial and commercial installations. They provide strong support and protection for low voltage cables and are widely available from suppliers like Brownrig Supplies and RS Malta .

•

Mesh or Wire Cable Trays: These trays are made of steel wire or mesh, offering flexibility and ventilation for cables. They are ideal for IT, data, and low voltage installations where heat dissipation is important. FBPMalta and XOL Malta offer mesh tray options .

•

Plastic or PVC Trunking: Lightweight and easy to install, plastic cable trays or trunking are suitable for residential or office low voltage wiring. BigMat Malta provides various trunking solutions for floor and wall installations .

Price Considerations
• Material: Steel trays are generally more expensive than PVC or plastic options. Galvanized steel trays can cost around €20–€50 per meter, while PVC trays may range from €10–€25 per meter.

• Dimensions: Wider or deeper trays that hold more cables are priced higher. Standard widths range from 50mm to 300mm.

• Supplier and Brand: Prices vary depending on the supplier, brand, and whether the tray comes with accessories like bends, covers, or mounting brackets. Local suppliers in Malta include Brownrig Supplies, BigMat Malta, FBPMalta, and XOL Malta .
Recommendations
• Request Quotes: For accurate pricing, contact suppliers directly as prices fluctuate based on material, quantity, and delivery.

• Consider Accessories: Include bends, junctions, and covers in your budget, as these can add 10–20% to the total cost.

• Check Availability: Some specialized trays, like mesh or large industrial trays, may require advance ordering in Malta.

By comparing suppliers and specifying the type and dimensions of the cable tray, you can obtain the most cost-effective solution for low voltage installations in Malta.
