Optical Fiber Cutter

Overview

Fiber optic cutters are typically used to precisely cut optical fibers to ensure a high quality connection during fiber optic joining and installation.

Key Takeaways

Here are some options for optic fiber cutters: Fully Automated Fiber Optic Cable Cutter: This machine can cut and strip fiber optic cables quickly and accurately, handling various cable types including loose-tube and ribbon cables. McMaster-Carr Fiber-Optic Cable Cutters: They offer a selection of fiber-optic cable cutters, including sawing, cutting, and scraping tools, with same and next day delivery options. Heavy Duty Fiber Cable Cutters: These include Kevlar fiber strength member cutters and scissors/snips kits designed for fiber optic technicians.

Specialized Fiber Optic Cutters: These tools are made of high-carbon stainless steel for durability and are designed to cut Kevlar materials and soft cables.
