Price of a fiber optic distribution box for three optical cables

Overview

Amazon.com: Fiber Distribution BoxFiber Optic Distribution Box, 12 Port Wall Mount Enclosure with 12 LC Duplex Adapters, Singlemode, FTTH, IP65 Waterproof.

Key Takeaways

A fiber optic distribution box suitable for three optical cables typically costs between $15 and $35, depending on the brand, port capacity, and whether it is indoor or outdoor rated.

Price Range and Options

For small-scale installations accommodating 2–4 fibers, indoor or wall-mounted boxes are commonly available in the $15–$25 range on eBay and Newegg. For example, a 4-port FTTH fiber distribution box can be purchased for $15. 49 to $25.

95 with free delivery in the United States. Amazon also lists similar 4-core fiber distribution boxes priced around $20–$30.

Features to Consider

Port Capacity: A 4-port box is sufficient for three optical cables, providing one extra port for future expansion. Adapter Types: Most boxes support SC, LC, or FC adapters, allowing flexible connection options. Indoor vs Outdoor: Outdoor boxes are typically IP65 or IP67 rated for dust and moisture protection, which may increase the price slightly to $25–$35.

Material: Common materials include ABS or polycarbonate, offering durability and UV resistance. Installation: Wall-mounted or pole-mounted designs are available, with compact sizes suitable for residential or small commercial setups.

Summary

For a fiber optic distribution box handling three optical cables, you can expect to pay approximately $15–$35. Indoor wall-mounted boxes are on the lower end, while outdoor-rated, weatherproof boxes with IP65/IP67 protection are on the higher end. These boxes are widely available from online retailers such as Amazon, eBay, Newegg, and specialized suppliers like Topfiberbox and MeFiberOptic.
