Asian Busbar Cable Tray Manufacturer

Overview

We are the best Cable tray system production manufacturer in Yangzhong, Jiangsu Province. In pursuing the best technology, we founded the joint venture company with Japan Ace Group in 2001.

Key Takeaways

Asia hosts several leading cable tray and busbar manufacturers, particularly in China, Indonesia, Malaysia, Vietnam, and the Philippines, offering high-quality, export-ready solutions for industrial and infrastructure projects.

Leading Manufacturers in China

Zhenjiang Ace Electric Group Co., Ltd. produces a wide range of cable trays, including ladder, channel, wire mesh, and perforated types, as well as bus ducts. Their products are used in major national projects such as subways and nuclear power plants, and they export to Japan, the United States, Austria, and the Middle East. Shandong Tianhong Electric Power Technology Co., Ltd. specializes in perforated trays, cable ladders, trunking, strut channels, and fittings.

They provide OEM and ODM services, supporting customized solutions for power plants, data centers, and commercial buildings. Huapeng Group Co., Ltd. is a top Chinese electric company supplying MV/LV switchgear, enclosed busbars, low-voltage busbars, and cable trays. Their products have been used in high-profile projects like Beijing Capital International Airport, the 2008 Olympic Games, and the Three Gorges Hydro Power Plant, and are exported to over 20 countries.

Regional Overview in AsiaAsia's cable tray market is growing rapidly due to infrastructure expansion and industrial development. Manufacturers in countries like Indonesia, Malaysia, Vietnam, and the Philippines focus on high-quality, durable, and climate-resilient designs suitable for global projects. For example, Indonesian companies such as Jaya Bersama Sentosa (JBS) and Baja Karya (BAKA) specialize in heavy-duty, corrosion-resistant trays for oil, gas, and telecommunications sectors.

Key Advantages of Asian Manufacturers

Diverse Product Range: Ladder, perforated, channel, aluminum, fiberglass, and fireproof trays. Global Standards Compliance: ISO, CE, and regional certifications ensure quality and safety. Export Experience: Many companies have extensive international project experience.

Customization: OEM/ODM services allow tailored solutions for industrial and commercial applications. Durability and Climate Adaptation: Products are designed to withstand tropical and industrial environments.

Conclusion

For sourcing cable trays and busbars in Asia, China remains the dominant hub, with companies like Zhenjiang Ace, Tianhong, and Huapeng offering comprehensive solutions for both domestic and international projects. Other Asian countries provide specialized, high-quality options suitable for regional infrastructure and industrial applications, making Asia a reliable source for cable management and busbar systems.
