Price of waterproof and explosion-proof electrical distribution boxes in Belarus

Overview

Explosion Proof Electrical Distribution Box Belarus Suppliers Buy premium Explosion Proof Electrical Distribution Box Belarus Suppliers in bulk from verifi.

Key Takeaways

Waterproof distribution boxes typically range from $20–$150, while explosion-proof boxes can cost $200–$1,000 or more, depending on size, material, and certification.Waterproof Distribution Boxes

Waterproof electrical distribution boxes are designed for outdoor and industrial environments, offering protection against dust, rain, and UV exposure with IP65–IP68 ratings. Common materials include PC plastic or UV-stabilized plastics, and they are available in DIN rail or multi-layer configurations for industrial wiring needs .

• Price range: Small plastic IP65 boxes can start around $20–$50, while larger multi-layer or DIN rail models may cost $80–$150 per unit .

• Applications: Lighting systems, pumps, solar installations, and general outdoor electrical protection.

• Suppliers: International suppliers like SinoBreaker and ETEK Electrical offer shipping options, and local Belarusian distributors may provide similar models with minor price adjustments.
Explosion-Proof Distribution Boxes

Explosion-proof boxes are engineered to contain sparks or arcs in hazardous environments, preventing ignition of flammable gases or dust. They are typically made from high-strength aluminum alloy or stainless steel (AISI 304/316L) and certified under ATEX or IECEx standards for Zone 1 and Zone 2 hazardous areas .

• Price range: Smaller aluminum or plastic explosion-proof boxes may start around $200–$400, while larger stainless steel or custom-configured units can exceed $1,000 .

• Applications: Oil and gas facilities, chemical plants, mining operations, offshore platforms, and other high-risk industrial sites.

• Customization: Many suppliers, such as Atex Delvalle and Hexlonex, offer custom sizes, terminal configurations, and control station integration, which can significantly affect pricing .
Sourcing in Belarus
• Local distributors: Belarusian electrical suppliers may stock standard waterproof boxes and some explosion-proof models, but custom or certified explosion-proof units are often imported.

• International suppliers: Alibaba, SinoBreaker, ETEK Electrical, and Hexlonex provide shipping to Belarus, though import duties and shipping costs should be considered.

• Recommendation: For industrial or hazardous applications, verify IP rating, ATEX/IECEx certification, and material quality before purchase, as these factors directly impact safety and compliance. In summary, waterproof boxes are relatively affordable, while explosion-proof boxes are a significant investment due to safety certifications and materials. Prices in Belarus will vary based on supplier, shipping, and customization requirements.
