Key Takeaways

Rooftop cable tray prices typically range from $2 to $100 per meter depending on material, type, and environmental requirements. Price Ranges by Material and TypeGalvanized Steel: $2–$25 per meter; commonly used for general-purpose installations due to its balance of cost and durability. Aluminum: $6–$30 per meter; lightweight, corrosion-resistant, ideal for outdoor or coastal environments.

FR

P (Fiberglass Reinforced Plastic): $10–$50 per meter; suitable for aggressive environments with high chemical exposure. Stainless Steel: $20–$100 per meter; highly durable and corrosion-resistant, used in heavy-duty or industrial rooftop installations.

Price Considerations

Tray Type: Ladder trays: Open design, supports heavy cables, slightly higher cost but easier cable management. Perforated or solid trays: Cheaper options for lighter loads or aesthetic rooftop installations. Coating and Finish: Hot-dip galvanized (HDG): Longer-lasting outdoors, higher upfront cost.

Powder coating: Protects against wear and corrosion, available in various colors. Pre-galvanized: Lower cost but less durable in corrosive environments. Additional Costs: Labor and installation: Skilled labor rates vary by region.

Shipping: Heavier trays increase transport costs. Fittings and couplers: Prices vary by size; for example, coupler plates for 25–50 mm trays can cost around ₹16 per piece in India. Example Supplier PricingHot-dip galvanized ladder trays: Standard 2.

4 m length, prices vary by supplier and region. Bulk orders: Often reduce per-meter cost significantly, especially for large rooftop projects.

Summary

For rooftop installations, aluminum or galvanized steel trays are most common due to their balance of durability and cost.

FR

P and stainless steel are preferred for highly corrosive or industrial environments. The final price depends on material, tray type, coating, installation complexity, and local labor costs. For accurate budgeting, obtaining supplier-specific quotes is recommended.
