Sc insert adapter

Overview

With their square shape and push-pull design, SC adapters facilitate easy insertion and removal while maintaining precise fiber core alignment to minimize signal loss. RS offer a wide selection of fibre optic adapters. They are used to bridge the gap between a cable to cable fibre connections and sometimes known as a mating sleeve or a hybrid adapter. Individually packaged in a plastic bag. Featuring a convenient push-pull mechanism, the SC Series is designed for single-mode, multi-mode, and APC applications and offers the most reliable optical fiber connections for Telecom. Our range of high quality SC adapters have high precision alignment sleeves for reliability and improved reconnectability. SC adapters are suitable for any data center, centr l ofice, MDU, CATV, or PON cabling installations using SC connectors. 3-D and TIA-604-3, FOCIS-3, GR-326, or IEC 61300.
