Large-scale cable tray support project in Canada

Overview

Constructability-Optimized Modular Steel Cable Tray Support SystemStructural design of a modular steel cable tray support system for an industrial facility.

Key Takeaways

Canada offers a range of heavy-duty, modular, and CSA-certified cable tray support systems suitable for large-scale industrial and commercial projects.Leading Suppliers and Systems

Superior Tray Systems Inc. provides custom-designed cable tray and cable bus systems that are CSA and UL certified, ideal for power, control, data, and telecom cables. Their solutions include robust support structures for large cable runs and are widely used across Canada and internationally, with a focus on reliability, durability, and cost-effectiveness . Unitray manufactures aluminum cable trays and fittings in CSA-approved Class C, D, and E ratings, with standard lengths of 3m, 5m, and 6m. Their systems are designed for industrial-scale applications and emphasize quality, safety, and compliance with ISO and OHSAS standards . Kable Kontrol® offers wall support brackets and mounts that provide corrosion-resistant, durable support for cable trays. These are suitable for large-scale wiring applications and allow for secure, organized cable management in industrial and commercial environments . Mechano Max specializes in modular, bolt-together steel supports for electrical panels, instrumentation, and cable trays. Their systems eliminate the need for welding or hot-work permits, allowing rapid installation and reconfiguration. Large load-distributing feet, clamp mounts, and pre-assembled stands make it possible to support heavy and extended cable tray runs efficiently. These solutions are highly adaptable, providing precise alignment, easy access, and integration with existing infrastructure .

Key Features to Consider

• Modularity and Flexibility: Systems like Mechano Max allow on-site adjustments and expansion for future equipment without welding or specialist contractors .

• Load Capacity: CSA-certified Class C, D, and E trays support heavy cable loads over long spans .

• Material and Corrosion Resistance: Aluminum and steel options are available, with coatings or finishes to resist corrosion in industrial environments .

• Ease of Installation: Bolt-together and clamp-mounted systems reduce installation time and eliminate hot-work permits, inspections, and delays .

• Compliance and Certification: CSA, UL, NOM, and NEMA standards ensure safety and reliability for Canadian projects .

Applications

These large-scale cable tray support systems are suitable for:

• Industrial plants and manufacturing facilities

• Energy and utility installations

• Data centers and telecom infrastructure

• Commercial buildings with extensive power and control cabling By selecting modular, certified, and heavy-duty support systems, Canadian projects can achieve efficient, safe, and scalable cable management for large-scale installations.

Constructability-Optimized Modular Steel Cable Tray Support System

Structural design of a modular steel cable tray support system for an industrial facility in Ontario, utilizing prefabricated HSS

Unitray Cable Tray Systems, Support, Cable Management, Ladder Tray

We manufacture CSA approved Class C, D and E cable tray and fittings with standard 3m, 5m and 6m lengths. Other customized

Substations & Cable Tray Supports Engineering Projects | GSEI

We work closely with electrical engineers to define the layout of new cable tray runs within existing buildings – confirming the trays fit

Cable Tray & Instrument Supports | Mechano Max

Our systems support standard cable trays from 6" to 24" width with cantilever spans up to 10 feet. All supports feature slotted

Cable Tray Support Brackets & Mounts

Cable tray wall support brackets & mounts provide strong, durable support, corrosion resistance, and easy installation for secure

Cable Bus Canada

SuperiorTray is an economical support system designed to organize and protect cables and wires in electrical distribution systems.

Product Catalogue | Unitray Cable Tray Systems, Support, Cable

Contact us today with any questions you may have regarding our company, services, employment opportunities or products. Unitray

Leading Cable Tray Supplier in Canada

Distribution and installation of top-performing cable tray custom-engeneered power distributions systems.

Transformer Foundation and Cable Tray Supports

Explore this Substations & Cable Tray Supports Transformer Foundation and Cable Tray Supports structural engineering project

Cablofil Cable Management | Legrand

© 2026 ALFA PRO COMMUNICATION SYSTEMS (Pty) Ltd - All rights reserved

We''ve expanded capacity across our Cablofil product line facilities, reducing lead times on Wire Mesh Tray, Ladder Tray and Cablofil

Transformer Foundation and Cable Tray Supports
