Temporary power distribution box manufacturer

Overview

Get reliable temporary power distribution and construction lighting solutions for your worksite needs with our portable power boxes, panels, and LED work lights.

Key Takeaways

Leading manufacturers of temporary power distribution boxes include Thermon, J&HW Group, Blakley Electrics, Hubbell Wiring Device-Kellems, and Wieland Electric, offering robust solutions for construction, industrial, and event applications.

Key Manufacturers and Offerings

Thermon provides versatile temporary power solutions, including portable power boxes, power distribution centers, and industrial light towers. Their products are designed for both general and hazardous environments, ensuring reliable power for construction sites, brownfield projects, and emergency situations. Thermon emphasizes durability, multiple outlet configurations, and safety features suitable for confined spaces and extreme conditions.

J&HW Group specializes in customized temporary distribution boxes for industrial, construction, and event applications. Their units accommodate power demands ranging from 10 kW to 200 kW and are built to withstand harsh outdoor environments with IP65 protection. J&HW offers consulting, design, molding, and manufacturing services to tailor solutions to specific operational needs.

Blakley Electrics manufactures a wide range of low voltage (230V and 400V) and reduced low voltage (110V) temporary distribution assemblies. They provide robust crash-frame enclosures, secure access panels, and lockable doors to prevent unauthorized interference. Blakley also offers project-specific equipment and high-current mains distribution assemblies for demanding construction and industrial projects.

Hubbell Wiring Device-

Kellems produces spider boxes and other portable temporary power units designed for construction sites and outdoor events. Their products feature rugged enclosures, multiple outlets, and compliance with industry safety standards. Spider boxes are easy to transport and set up, providing reliable power distribution in challenging environments.

Wieland Electric offers mobile distribution boxes for exhibitions, events, and temporary installations.

Their WI

V distribution boxes provide flexibility, pluggability, and fast assembly, with various connector systems such as gesis® MINI and CLASSIC for indoor use and RST® for higher IP protection. Wieland emphasizes safe, error-free commissioning and compliance with IEC standards. Considerations When Choosing a ManufacturerPower Requirements: Ensure the box meets the voltage and current needs of your equipment (10 kW–200 kW typical).

Environmental Protection: Look for IP-rated enclosures for outdoor or harsh conditions. Portability and Setup: Consider units that are easy to transport, assemble, and extend. Safety Features: Lockable doors, residual current protection, and circuit breakers enhance safety.

Customization: Some manufacturers offer tailored solutions for specific industrial or event applications. These manufacturers provide reliable, durable, and safe temporary power distribution solutions suitable for construction sites, industrial projects, events, and emergency power needs.
