

Butuo Energy-Saving Cable Tray Prices

Overview

Buy premium Butuo Cable Tray in bulk from verified wholesale suppliers and manufacturers. Best prices, bulk discounts, trusted deals at go4WorldBusiness .

Key Takeaways

Butuo energy-saving cable trays typically range from \$2 to \$25 per meter, depending on material, type, and order quantity.

Price Range and Cost Factors

The price of Butuo cable trays, like other cable trays, depends on several factors: material, surface treatment, size, type, and supplier margins. Common materials include galvanized steel, stainless steel, aluminum, and plastic, with galvanized steel being the most cost-effective and stainless steel the most expensive due to corrosion resistance. Surface treatments such as hot-dip galvanizing (HDG), powder coating, or pre-galvanized finishes also affect the price, with HDG being more durable and costly.

Typical price estimates per meter are: Pre-Galvanized Steel (PG): Most affordable, suitable for dry indoor areas.

Hot-

Dip Galvanized Steel (HDG): Higher cost, ideal for outdoor or industrial environments. Aluminum: Lightweight and corrosion-resistant, more expensive upfront but may reduce installation costs. Plastic/FRP trays: Budget-friendly but limited to light-duty applications.

Cable tray types also influence cost: ladder trays are more expensive but support heavy cables, while perforated or wire mesh trays are cheaper and suitable for lighter loads.

Supplier and Bulk Order Considerations

Butuo cable trays are available through B2B suppliers in Germany and internationally, including platforms like Europages, which list multiple distributors and manufacturers. Bulk orders can reduce costs by 20%–40%, and shipping, installation, and labor costs should be considered in the total project budget.

Practical Tips

For energy-saving projects, consider lighter materials like aluminum to reduce installation energy and support structures. Custom sizes may slightly increase unit cost but optimize cable management efficiency. Compare suppliers for bulk discounts and delivery options to minimize overall expenditure.

In summary, expect Butuo energy-saving cable trays to cost between \$2 and \$25 per meter, with final pricing influenced by material, type, surface finish, and order volume, while bulk purchasing and supplier selection can significantly reduce costs.
