What is the price of cable tray supports and hangers

Overview

12" Center Hanger - Only one threaded rod is needed to suspend tray. Suspension tube protets cables.

Key Takeaways

Cable tray supports and hangers typically range from $2 to $15 per piece, depending on type, material, and quantity.General Pricing Overview
• Hanging clamps and clips: Small clips for 1/4", 3/8", or 1/2" threaded rods generally cost $2–$5 each, often sold in packages of 25–50 units (Platt Electric Supply, McMaster-Carr) .

• Trapeze or center hangers: Larger supports that suspend trays from multiple rods or provide balanced loading can range from $8–$15 per hanger, depending on length and material (carbon steel, pre-galvanized) .

• Hanging bars and strut channels: These are used for heavier loads and can support up to 280 lbs per foot. Prices vary by length and zinc-plated or corrosion-resistant finish, typically $10–$20 per foot of bar .

• Wire mesh or ladder tray supports: Economical wire mesh trays with zinc or electro-zinc coating may cost $5–$12 per foot, with accessories like connectors and brackets sold separately .
Factors Affecting Price
• Material: Stainless steel or highly corrosion-resistant finishes cost more than pre-galvanized or zinc-plated steel.

• Load capacity: Supports rated for heavier loads or longer spans are more expensive.

• Quantity: Bulk orders often reduce the per-unit cost.

• Supplier and location: Prices vary by distributor and ZIP code; some suppliers require entering a ZIP code to view exact pricing (Graybar) .

• Accessories: Nuts, washers, and threaded rods are usually sold separately, adding to the total cost .
Recommendations
• For small projects, pre-galvanized clips and hangers are cost-effective.

• For industrial or high-load installations, invest in zinc-plated or stainless steel trapeze hangers and strut channels.

• Always check supplier websites like McMaster-Carr, RS, Graybar, or Platt Electric Supply for current pricing and availability in your area. By considering these factors, you can estimate a budget for cable tray supports and hangers while ensuring the system meets load and corrosion requirements.
