Table of Domestic Standard Network Cabinet Models

Overview

Home Networking Cabinet Size Guide: How to Choose the Right This quick reference table shows you exactly which cabinet size works best for different projec.

Key Takeaways

Standard domestic network cabinets are available in heights from 15U to 47U, with widths of 600mm and depths ranging from 600mm to 1000mm, supporting 19-inch equipment and offering options like perforated doors, adjustable legs, and cooling fans.Table of Standard Network Cabinet ModelsModel / SeriesHeight (U)Width (mm)Depth (mm)Front DoorRear DoorSide PanelsFeaturesSTANDARD Series15, 18, 20, 22, 27, 32, 37, 42, 47600600–1000Glass / PerforatedRemovableRemovableCastors, height-adjustable legs, optional cooling fans, cable entry ports top/bottom, compatible with 19” equipment ASSMANN Free-Standing12–47600600–1000Perforated / SolidPerforated / SolidRemovableAdjustable mounting rails, perforated doors for airflow, optional cooling and cable management accessories Hubbell Enclosures12–45600600–900PerforatedPerforatedRemovableSliding front/rear rails, RU numbering, airflow optimization, static load up to 2000 lbs, compatible with cooling and cable management accessories Key Notes
• Height (U): One U equals 1.75 inches (44.45 mm). Cabinet height determines how many rack units of equipment can be installed .

• Door Types: Perforated doors improve ventilation; glass doors allow visibility while maintaining dust protection.

• Side Panels: Removable panels facilitate maintenance and cable management.
