Compatible High-Precision Air-Cooled Switches Supplier from ASEAN Ten Countries

Overview

Find authorized onsemi distributors in the Asia-Pacific region. Connect with trusted partners for electronic components and semiconductor solutions.

Key Takeaways

CITEC International and Daier Electron are leading suppliers of high-precision air-cooled switches and related components in the ASEAN region. Key Suppliers1.

CITE

C International (Malaysia) CITEC specializes in precision air conditioning and cooling systems, including air-cooled solutions for data centers and industrial applications. Their products are engineered for high reliability, efficiency, and Class A certifications, making them suitable for environments requiring precise temperature control.

CITE

C provides customizable designs and long-term support across Asia-Pacific, including ASEAN countries, ensuring compatibility with high-precision switch systems and critical mission environments. 2. Daier Electron (China, with ASEAN distribution) Daier is a professional manufacturer of precision switches, including push buttons, rocker, toggle, and indicator lights.

With over 20 years of manufacturing experience and ISO certification, Daier produces high-precision switches suitable for industrial, marine, and automation applications. Their production hub supports customized engineering solutions, including specialized terminals and integrated wire harness assemblies, which can be adapted for air-cooled systems. 3.

ORIO

N Machinery (Japan, regional partners in ASEAN) ORION's PAP Air-Cooled Temperature and Humidity Controlled Precision Air Processors combine energy savings with high precision, featuring HEPA filtration and precise temperature/humidity control. These systems are compatible with sensitive industrial equipment and can be customized for specific operational ranges, making them suitable for integration with high-precision switches.

Considerations for ASEAN Sourcing

Regional Support: Malaysia-based CITEC and distributors of Daier and ORION products provide local technical support and after-sales service. Customization: All three suppliers offer custom-built solutions to meet specific temperature, humidity, and electrical requirements. Certifications: ISO and Class A certifications ensure compliance with industrial standards.

Compatibility: These suppliers' products are designed to integrate with precision air-cooled systems, ensuring reliable operation in critical environments. For sourcing high-precision air-cooled switches across ASEAN, CITEC International and Daier Electron are recommended starting points, with ORION Machinery as a specialized option for temperature and humidity-controlled systems. Contacting these suppliers directly will allow specification matching and regional distribution arrangements.
