

Cost of Long-Span Cable Trays in Palau

Overview

Palau Stainless Steel Long Span Cable Tray Buyers & Importers. Sell Palau Stainless Steel Long Span Cable Tray in bulk to verified buyers and importers.

Key Takeaways

Long-span cable trays in Palau typically range from \$50 to \$200 per meter, depending on material, size, and load capacity. Long-span cable trays are designed for industrial and large-scale cable installations, offering greater support spans and higher load-bearing capacity than standard trays. They are commonly used in petrochemical plants, power distribution, mining, and underground projects such as subways or civil defense installations.

Materials include stainless steel, galvanized steel, aluminum, and composite fiberglass, with stainless steel being preferred for corrosion resistance and heavy-duty applications, especially in coastal or humid environments like Palau. Factors affecting price include:

- Material type: Stainless steel (higher cost, superior durability), aluminum (lighter, moderate cost), galvanized steel (cost-effective, moderate corrosion resistance)
- Tray width and height: Larger dimensions increase material usage and cost
- Load capacity: Heavy-duty trays designed for large cable bundles are more expensive
- Supplier and shipping: Import costs to Palau can significantly affect final pricing

Estimated price ranges:

- Stainless steel long-span trays: \$120–\$200 per meter
- Galvanized steel trays: \$80–\$150 per meter
- Aluminum trays: \$100–\$180 per meter

For bulk purchases, suppliers in Palau and regional distributors may offer discounts or negotiated rates.

It is recommended to contact local suppliers directly to obtain precise quotes, confirm material specifications, and check availability for your project requirements. Additional considerations: Ensure proper tray installation, grounding, and spacing to maintain structural integrity and safety, especially for long-span applications in industrial or outdoor environments.
