

Custom Price for Optical Fiber Connectors

Overview

Fiber Thorlabs' full line of optical fiber and fiber optic components are presented here. This includes our industry-leading selection of bare optical fiber.

Key Takeaways

Custom pricing for optical fiber connectors depends on connector type, fiber specifications, and quantity, and can be obtained directly from specialized suppliers. How to Obtain a Custom Price1. Contact Fiber Specialists or Suppliers Directly Many suppliers offer personalized quotes for custom fiber optic connectors and assemblies.

For example, Cables For Less allows you to email their fiber specialists or use their online fiber optic cable calculator to create a custom cable and request a fast quote (Sales@cablesforless.com). Fibertronics, Inc. provides USA-manufactured custom fiber optic assemblies and can provide pricing based on your specifications. 2.

Use Online Customization Tools Some companies, like FS, offer online tools to configure fiber patch cables with custom connectors (LC, SC, FC, ST, MTRJ, etc.) and request pricing for low-loss or high-density applications. Thorlabs also allows ordering custom fiber patch cables with rapid shipping, which can include a price quote based on your configuration. 3.

Consider Distributor Options Authorized distributors like Mouser Electronics provide a wide selection of fiber optic connectors and allow filtering by quantity and unit price. They also provide datasheets and pricing information, which can help estimate costs for bulk or custom orders.

Factors Affecting Custom Pricing

Connector Type: LC, SC, ST, FC, MPO, MTRJ, etc. Fiber Type: Singlemode or multimode (OM1, OM2, OM3, OM4) Cable Length: Longer cables or specialized lengths may increase cost Quantity: Bulk orders often reduce per-unit cost Customization: Low-loss, high-density, or specialty assemblies may carry additional charges Shipping and Tariffs: International shipping may include tariffs (e.g., 8–38% in the U. S.) Recommended Steps Identify the connector type and fiber specifications you need.

Use an online configurator or contact a supplier directly for a quote. Compare quotes from multiple suppliers to ensure competitive pricing. Confirm lead times, shipping, and any additional fees for custom assemblies.

By following these steps, you can obtain a custom price tailored to your specific optical fiber connector requirements and ensure the solution meets your technical and budgetary needs.
