

Direct Sales of AOC Active Optical Cable SFP

An Extensive Library of Self-Developed Products

Overview

AOC Cables L-com provides a variety of active optical cables (AOCs) for your most challenging and demanding applications. We offer optical AOC Active Optic.

Key Takeaways

Active Optical Cable (AOC) SFP products are available for direct purchase from multiple suppliers, offering high-speed, plug-and-play fiber connectivity for data centers and enterprise networks. Key Suppliers and Options

- L-com L-com offers a wide range of AOC cables including SFP+, SFP28, QSFP+, and QSFP28. Their cables support speeds from 10 Gbps to 100 Gbps, feature electrical-to-optical conversion at each end, and are compliant with SFF-8431 and SFF-8432 standards. L-com provides same-business-day shipping and supports applications in data centers, HPC, storage networks, and video surveillance .
- Pivotal Optics Pivotal Optics provides plug-and-play AOCs for short- to medium-range high-speed links. Their SFP and QSFP cables are validated for compatibility with major vendors like Cisco, Juniper, Arista, Dell, Intel, and Mellanox. These cables are energy-efficient, low-latency, and ideal for switch-to-switch or switch-to-server connections .
- EdgeOptic EdgeOptic's AOC portfolio spans 10G SFP+ to 400G QSFP-DD, with reach up to 100 meters over multimode fiber. Their cables include DDM/DOM support for real-time link monitoring and are compatible with leading vendors. EdgeOptic emphasizes plug-and-play installation without separate optics, making them suitable for inter-rack connections and high-performance computing clusters .

- Fibermart offers SFP+ AOC assemblies for 10/40/100Gb Ethernet applications, providing longer link distances, superior signal integrity, and better electromagnetic immunity compared to copper DACs. Their AOCs are designed for high port density and are suitable for LAN Ethernet, InfiniBand, OmniPath, and proprietary interconnect networks. Fibermart provides worldwide shipping and direct sales support.

Advantages of AOC SFP Cables

- High-speed data transfer: Supports 10–100 Gbps for SFP/SFP+ and SFP28 applications.
- Plug-and-play: No separate transceivers or fiber splicing required.
- Longer reach than copper DACs: Up to 100 meters over multimode fiber.
- Low power consumption and EMI immunity: Ideal for dense data center environments.
- Vendor compatibility: Many suppliers validate AOCs with major networking equipment brands.

Purchasing Tips

- Confirm compatibility with your network switches or servers.
- Check link distance requirements to select the appropriate multimode or single-mode AOC.
- Consider DDM/DOM support for real-time monitoring if network management is critical.
- Contact suppliers directly for custom coding or mixed-vendor environments if needed. For direct purchase, you can visit the suppliers' websites: L-com, Pivotal Optics, EdgeOptic, and Fibermart to place orders or request quotes.
