

European Style Trapezoidal Cable Tray Sales Price

Overview

Since 1982, VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-installation accessories.

Key Takeaways

Trapezoidal European-style cable trays typically range from €20 to €100 per meter, depending on material, size, and customization, with exact prices available via supplier quotes. Price Overview

The cost of trapezoidal cable trays varies significantly based on material, dimensions, and surface treatment. Common materials include hot-dip galvanized steel, stainless steel, and aluminum, with galvanized steel being the most economical and stainless steel the most expensive due to corrosion resistance and durability. Standard lengths are usually 2–3 meters per section, and widths and heights affect the price per meter.

- Galvanized steel trays: approximately €20–€50 per meter
- Aluminum trays: approximately €40–€70 per meter
- Stainless steel trays: approximately €60–€100 per meter Customizations such as pre-drilled holes, bends, or special coatings can increase the price. Large orders may qualify for discounts, especially for purchases over €500–€1000.

How to Obtain Exact Pricing

Most European suppliers, including Ekabel24, Eurostrut, and Eurotray, do not list fixed prices online for trapezoidal trays but offer quote requests via their websites . B2B marketplaces like Europages also allow direct contact with multiple suppliers to compare prices and shipping options . When requesting a quote, provide:

- Tray length, width, and height
- Material type (galvanized, aluminum, stainless steel)
- Surface treatment (powder coating, epoxy, etc.)
- Quantity and delivery location

Additional Considerations

- Load capacity: Heavier-duty trays for industrial or photovoltaic installations may cost more.
- Ventilation and design: Trapezoidal trays offer better airflow and cable protection, which can influence pricing .
- Installation accessories: Supports, brackets, and bends are usually priced separately. For accurate budgeting, it is recommended to contact suppliers directly with your specifications to receive a tailored quote. This ensures the price reflects material, size, and any additional features required for your project.
