

Fiber Optic Cable Production in Africa

Overview

This is a list of projects in. While are used to connect countries and continents to the, are used to extend this connectivity to landlocked countries or to urban centers within a country that has submarine cable access. In most of the world, a large number of such cables exist, often amounting to robust.

Key Takeaways

Africa hosts several major fiber optic cable factories, including Nigeria's Coleman Technical Industries, YOA Cable, and RaddyFiber in Tanzania, serving both local and regional markets. Key Factories1. Coleman Technical Industries (CTIL), Nigeria Located in Sagamu, Ogun State, this is currently Africa's largest fiber optic cable factory and the continent's first facility producing fiber-reinforced plastic (FRP) for cables.

The plant has an annual production capacity of over nine million kilometers of fiber optic cables and can process about 13,000 tons of copper and aluminum monthly. Built in partnership with Corning Inc., the facility spans 350,000 square meters and is designed to meet 50% of Africa's fiber demand. It also includes a copper and aluminum smelting plant producing 3,000 tons of aluminum and 10,000 tons of copper monthly.

The factory supports broadband expansion, digital inclusion, and export growth, creating over 20,000 direct jobs and 200,000 indirect roles. 2.

YO

A Cable, Africa YOA Cable is recognized as Africa's largest optical fiber cable manufacturer, focusing on innovative manufacturing processes such as Fast Fusion Technology (FFT), which improves cable handling and reduces installation complexity. The company emphasizes local talent development, particularly in STEM skills for young women, and provides fiber optic solutions tailored for the African market. 3.

Raddy

Fiber Manufacturing Tanzania Ltd Located in Mwanambaya, Mkuranga District, near Dar-es-Salaam, RaddyFiber produces high-quality fiber optic cables and accessories for industrial, telecommunications, security, and commercial projects. The company serves East and Central Africa and collaborates with mobile network operators and government agencies to support regional connectivity. Products include outdoor cables, armored cables, and connectors for fiber networks.

Regional Impact

These factories are critical for reducing import dependence, supporting local digital infrastructure, and enabling broadband expansion across Africa. They also contribute to job creation, technological advancement, and regional export capacity, positioning Africa as a growing hub for fiber optic manufacturing.

Summary

For anyone seeking fiber optic cable suppliers or manufacturing partners in Africa, Coleman Technical Industries in Nigeria, YOA Cable, and RaddyFiber in Tanzania are leading options, offering large-scale production, advanced technology, and regional distribution capabilities.

Top 10 Fiber Optic Manufacturers Serving Africa in 2025

In this comprehensive guide, we spotlight the top 10 manufacturers based on market share, innovation, regional presence, and contributions to key projects. Rankings draw from global

List of terrestrial fibre optic cable projects in Africa

This is a list of terrestrial fibre optic cable projects in Africa. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to extend this connectivity to landlocked countries or to urban centers within a country that has submarine cable access. In most of the world, a large number of such cables exist, often amounting to robust Internet backbones

Pictures | Inside South Africa's biggest fibre factory

Although it is used in last-mile infrastructure to connect homes and businesses, fibre is arguably even more important in backhaul infrastructure,

Solomon Onafowokan's Coleman opens Africa's largest fibre-optic

The new facility, the largest of its kind in Africa, is designed to produce up to 9 million kilometres of fibre-optic cable annually, supporting Nigeria's goal of building a self-reliant digital

YOA Cable launches biggest optical fibre plant in Africa

Fibre cable maker Yangtze Optics Africa Cable has opened a R160 million facility — the biggest optical fibre cable manufacturing plant on the continent — at the Dube TradePort special...

NiaFiber

Discover tailored solutions for your fiber infrastructure needs. From consulting to supplying top-quality accessories, we're your trusted partner in Africa. Unleash the potential of our premium duct fiber

Nigeria unveils Africa's largest fibre optics factory with local ...

Nigeria's digital infrastructure took a significant step forward with the commissioning of Africa's largest fibre optic cable factory and the continent's first fibre-reinforced plastic...

List of terrestrial fibre optic cable projects in Africa

Terrestrial fibre optic cable projects in Africa involve the deployment of optical fiber cables laid across land routes to establish high-capacity backbone networks for data transmission, telecommunications,

Jonard Tools | World's Best Tool Warranty

It includes a rugged backpack and a variety of tools for multiple applications such as stripping, ringing, cutting, cleaning, and preparation of fiber optic cable. This tool

Fiber Optic Cables

CommScope designs and manufactures a comprehensive line of fiber optic cables—from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Wires and Cables Market Size, Segmentation & Forecast 2031

Wire and Cable Market size was USD 245.44 billion in 2026 and is projected to reach USD 315.78 billion by 2031, driven by fiber optics, EVs, and grid expansion.

Fibre Optic Cable

Cable Applications is a leading South African distributor of Fibre Optic Cable including Heavy Duty Duct Single Mode Cable and Heavy Duty Duct Multi Mode Cable

How is Fiber Internet Installed? Everything You Need to

Explore how fiber optic internet is installed in your home, with step-by-step details on cables, ONTs, routers, and what to expect during the appointment.

Fiber Optic Cable Supply | Buy Fiber Optic Products from The Most ...

Shop for fiber optic cables at Cables Plus USA, leader in fiber optic products supply offering high-quality products at the best value through our fiber optic cable wholesale. Buy and save big on bulk orders.

Fiber Optic Cables | Corning

With 2 billion kilometers of fiber optic cables installed around the globe, Corning continues to lead the industry in product quality and innovation.

Optical Fibers & OEM Fiber Assemblies | CeramOptec

PRODUCTS The right solution for every challenge From bare fibers to custom optical fiber cables and fiber assemblies – engineered for maximum

Optical Communications Products

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a bill of materials list.

How does fiber optics work?

An easy-to-understand introduction to fiber optics (fibre optics), the different kinds of fiber optic cables, and how light travels down them.
