

Fiberglass Phenolic Cable Tray Manufacturer

Overview

Top 10 Companies in the Fiberglass-reinforced Cable Tray Industry The Global Fiberglass-reinforced Cable Tray Market was valued at USD 712.4 Million in 202.

Key Takeaways

Ganga Fibrotech, MP Husky, EBO Systems, and Monterra International are leading manufacturers of fiberglass phenolic cable trays.

Leading Manufacturers

Ganga Fibrotech specializes in FRP and GRP cable trays, including phenolic resin options, offering high-strength, corrosion-resistant solutions for industrial and infrastructure applications. Their products are designed for electrical and instrumentation needs, with customization available for specific applications.

M

P Husky provides pultruded fiberglass cable trays suitable for harsh environments like offshore oil and gas. Their trays are non-conductive, corrosion-resistant, and meet ASTM E-84 Class 1 flame rating standards. Phenolic resin systems are available for superior fire resistance.

EB

O Systems manufactures pressed and pultruded fiberglass trays with excellent chemical and weather resistance. Their trays are lightweight, self-extinguishing, and suitable for outdoor, humid, or saline environments, including food and railway applications. Monterra International offers FRP cable trays designed for industrial infrastructure, emphasizing structural integrity, safety, and resistance to harsh environments such as chlorine, sulfur, or saltwater exposure.

Key Features of Fiberglass Phenolic Cable Trays

Fire Resistance: Phenolic resin provides self-extinguishing properties with low smoke emission. **Corrosion Resistance:** Ideal for chemical plants, offshore, and saline environments. **Lightweight & Strong:** Easier installation and reduced transportation costs compared to steel.

Non-

Conductive & Non-Magnetic: Safe for electrical installations and compatible with sensitive equipment. **Customizable:** Available in various sizes, colors, and resin systems to meet specific industrial requirements.

Applications

Fiberglass phenolic cable trays are widely used in industrial plants, offshore platforms, tunnels, food processing facilities, and railway systems, where fire safety, chemical resistance, and durability are critical. For sourcing, contacting these manufacturers directly will provide detailed specifications, pricing, and customization options to match your project requirements.
