

High-density steel cable trays desktop type in stock

Overview

Sturdy and Durable: Made of 4mm high density steel, this cable tray holds up to 33 lbs and is rust-resistant. The wire hook design makes cable management much easier. Crafted from cold-rolled steel, it doesn't just hide wires—it protects your hardware, ensures thermal safety, and creates a 'zero-cable' aesthetic for the modern minimalist. Installation is simple — simply attach it to the Hexcal Elevate Standing Desk using pre-drilled holes, or mount it on any. **All-In-One Kit:** Includes 10 cable ties and 8 cable clips to enhance cord management and keep your workspace even more organized. RSP Supply offers cable tray systems and accessories from manufacturers such as Hoffman to support a wide range of cable routing applications.
