

# Household electrical distribution box circuit breaker allocation

## Overview

Arrangement order: The circuit breakers should be arranged from left to right, and the reserved position is generally placed on the right side of the distribution box. A house distribution board (HBD) is a type of electrical panel that distributes power to the various rooms and outlets in your home. The HBD houses circuit-breakers for each appliance and outlet, and typically includes a main breaker and two sub-circuit breakers. This guide shows you how to organize circuit breaker wiring properly. It includes isolator, RCCB (Residual current circuit breaker) or RCD (Residual-current device) devices, protective fuses or MCB's (Miniature Circuit Breaker). Wiring a Distribution Board is vital in any electrical installation.
