

How to use a butterfly-shaped optical cable stripper

Overview

A fiber stripper is a precision tool used to remove the protective polymer fiber coatings from an optical fiber.

Key Takeaways

A butterfly-shaped optical cable stripper allows fast, safe removal of the outer sheath from fiber optic cables with a single-handed push-and-pull motion, protecting the internal fibers.

Step-by-Step Instructions

1. Prepare the Cable and Workspace

- Wear safety glasses to protect your eyes from fiber shards.
- Ensure the cable is clean and free from tension.
- Have a container ready for fiber scraps to prevent injury or contamination .

2. Position the Stripper

- Hold the butterfly-shaped stripper in your dominant hand.
- Align the cable with the factory-set blades; no adjustments are needed .
- The tool is designed for a push-on, then pull-off operation, so place it at the point where you want to strip the sheath.

3. Strip the Outer Sheath

- Push the stripper onto the cable until the blades engage the outer sheath.

- Pull the tool along the cable or slide it off to remove the sheath cleanly.
 - The enclosed blades prevent damage to the internal optical fibers . 4. Strip the Buffer Coatings (if needed)
 - If your cable has multiple buffer layers (e.g., 900 micron and 250 micron), use the appropriate grooves on the stripper.
 - Take small, incremental cuts (about 6-8 mm at a time) to avoid stressing or breaking the fiber .
 - Hold the stripper at a 45-degree angle to the fiber for smoother removal. 5. Clean the Fiber
 - After stripping, clean the exposed fiber with a lint-free wipe and alcohol to remove debris or residue .
 - Ensure the fiber is free of dust or oils before splicing or connectorization. 6. Dispose of Fiber Scraps Safely
 - Collect all fiber scraps in a marked container to prevent injury or contamination .
- Tips for Best Results
- Practice on spare cable to get a feel for the tool's angle and pressure.
 - Avoid trying to remove too much buffer at once; gradual stripping reduces breakage.
 - The butterfly-shaped stripper is lightweight and ergonomic, making it suitable for overhead or confined spaces . By following these steps, you can efficiently and safely strip fiber optic cables using a butterfly-shaped optical cable stripper without damaging the delicate internal fibers.

How To Strip Fiber Optic Cable | Instructional

In this instructional video, Bob Licari, Test Equipment Product Manager, demonstrates a

Optical Fiber Drop Cable Stripper FTS-01 Stripe 3.0

As a hand-held stripper, it has a high-strength structure, simple operation, and a

Stripping Techniques For Your Fiber Optic Cable

Good fiber optic stripping techniques in your cable assembly process are crucial. See best

Fiber and Cable Stripper – Types, Uses & Guide

Learn how to use fiber strippers, cable cutting scissors, and armored cable slitters. Discover their applications in fiber

FTS-01 Fiber Optic flat cable Stripper

Have any questions? Talk with us directly using LiveChat.

Fiber Optic Stripping Tools | Johnny's Tool Box

John Bruno demonstrates how, the do's and do not's, to strip fiber optic cable with

Fiber Strippers – tools, mechanical, thermal, chemical,

A fiber stripper is a precision tool used to remove the protective polymer fiber coatings from an optical fiber.

From Installation to Longevity: A Complete Guide to FTTH Butterfly ...

Learn how to install FTTH butterfly optical cables correctly, avoid common mistakes, and maximize service life with

Types of wire stripper tool and how to use them.

This blog shows how to choose and use wire strippers correctly. Help you significantly impact the efficiency of fiber

Drop cable stripper FTS-01 Optical Fiber Stripper Suitable for 3.0

As a hand-held stripper, it has a high-strength structure, simple operation, and a flat incision without damaging the optical fiber. It is

How To Use A Fiber Optic Thermal Stripper

The FIS Thermal Stripper makes stripping 900µm or 250µm fibers easy and reduces the

Butterfly -shaped optical fiber optical cable

Butterfly-shaped optical fiber cables are a popular type of fiber optic cable that is commonly

Four -end connection methods of butterfly -shaped optical fiber optic ...

Butterfly-shaped optical fiber optic cables are a type of fiber optic cable that is widely used in communication networks.

Tools

Jonard Fiber Optic Stripper 180um JIC-180C Spec Sheet Made with preset factory settings and no adjustments required. This fiber

How to Choose the Right Fiber Stripper for Your Fiber Optic Cables?

FAQ Section What is the importance of selecting the right fiber stripper? Selecting the right fiber stripper is crucial to

Introduction to Fiber Optics Cables – Stripping and Cleaving

Each group of participants will have a commercially available fiber optic stripper. As you will discover, this makes the

Fiber Optic Cable Stripping Tools and Equipment

Shop our fiber optic cable stripping tools, essential for removing cable jackets, aramid yarn, and buffers to ensure optimal fiber optic

Amazon : Fiber Optic Tools

Miller FO 103-S Series Single Hole Fiber Optic Stripper for Working Technicians and Electricians, Safe Cable Tool

Optical Fiber Drop Cable Stripper FTS-01 Stripe 3.0

And has a long service life, butterfly-shaped drop cable: 60,000 times. As a hand-held stripper, it has a high-strength structure,

How to Use the Cable Stripping & Cutting Tool – trueCABLE

Why is our "multi-strip" tool so useful? Capable of cutting and stripping the jacket from any type of Ethernet cable, short

FTTH Butterfly Optic Cables: Types, Specs & Installation Guide 2026

FTTH Butterfly Optic Cables were engineered specifically for this problem. Their flat, wing-shaped cross-section puts

Butterfly -shaped optical fiber optical cable side connection method

Butterfly-shaped optical fiber cables are a popular type of fiber optic cable that is commonly used for data transmission in

FiberShack

About this item INDUSTRY PROVEN DESIGN: Our Fiber Cable Stripping tool is field tested to deliver consistent performance. Ideal

AFL Precision Strip Tool: Fast, Simple, and Accurate F | AFL Global

The AFL Precision Strip Tool is a fast, simple, and accurate solution for stripping fiber without damage. It is battery-powered and

FTS-01 Optical Fiber Cable Stripper, Suitable for 3.0*2.0mm Butterfly ...

And has a long service life, butterfly-shaped drop cable: 60,000 times. As a hand-held stripper, it has a high-strength structure,

Strippers – NE Fibre Ltd

Discover our premium selection of strippers designed for precision and efficiency in fibre optic tasks. Equip yourself with our top-tier

Fiber Optic Cable Stripper & Wire Stripping Pliers | Precision Jacket

Achieve clean, damage-free strips every time with our professional Fiber Optic Cable Strippers and Wire Stripping Pliers. Featuring

FTTH Butterfly Optic Cables: A Comprehensive Guide

As the name suggests, FTTH butterfly optic cables are so - named due to their cross - sectional shape, which

How To Use A Fiber Optic Thermal Stripper

The FIS Thermal Stripper makes stripping 900µm or 250µm fibers easy and reduces the
