Indian Hot-Dip Galvanized Cable Tray Manufacturers

Overview

Hot Dip Galvanized Cable Tray Manufacturers in IndiaWe are Top Hot Dip Galvanized Cable Tray Manufacturers in India, Suppliers and Hot Dip Galvanized Cable.

Key Takeaways

India has several leading manufacturers of hot-dip galvanized cable trays, offering durable, corrosion-resistant solutions for industrial and commercial applications.

Key Manufacturers

Electrotech Industries – Based in India, they specialize in hot-dip galvanized (HDG) cable trays made from high-quality galvanized steel and cast iron. Their products, including HDG ladder and trough cable trays, are designed to withstand high temperatures up to 450°C and resist corrosion, making them suitable for heavy-duty industrial sectors.

ASEF

S India – Offers robust HDG cable trays for industrial, commercial, and infrastructure projects. Their trays are manufactured from premium-grade steel with a uniform zinc coating, providing excellent mechanical strength, corrosion resistance, and long service life. They provide ladder, perforated, and solid-bottom trays tailored for optimal load distribution and ventilation.

Global Manufacturers – Located in West Bengal and serving across India, they produce premium-quality HDG cable trays engineered for heavy-duty industrial use. Their trays are customizable in size and design, ensuring easy installation and long-lasting performance. They supply to multiple states including Delhi NCR, Maharashtra, Tamil Nadu, Karnataka, and Gujarat.

Parmar Industries, Pune – Specializes in HDG cable trays with strong corrosion protection through immersion in molten zinc. Their products are suitable for outdoor and harsh environments, offering superior durability compared to pre-galvanized or electro-galvanized trays. Sai Enterprises, Pune – Manufactures a wide range of HDG cable trays in various shapes and sizes.

They use high-grade raw materials sourced from authentic vendors, ensuring quality and reliability for diverse industrial applications.

Product Types and Benefits

Ladder Cable Trays: Open design for excellent ventilation, ideal for high-power cables and heavy-duty installations. Trough Cable Trays: Enclosed design providing protection against dust, moisture, and mechanical damage.

Perforated and Solid-

Bottom Trays: Offer flexibility for specific load and environmental requirements. Advantages: HDG cable trays provide corrosion resistance, high load-bearing capacity, long service life, and suitability for both indoor and outdoor installations. They simplify cable management, reduce maintenance, and enhance safety in industrial and commercial setups.

These manufacturers collectively cover most regions of India, ensuring availability and timely delivery for large-scale projects.
