Kuwait Trapezoidal Cable Tray Processing Plant

Overview

Bahman GroupSpanning more than six decades, the Bahman Group of Companies stands tall as one of the pioneers in the Kuwait market in the field of GeneralTra.

Key Takeaways

Kuwait hosts several advanced cable tray manufacturing facilities producing trapezoidal, ladder, and perforated cable trays for industrial and infrastructure projects.

Key Manufacturers and Facilities

Alnafaa Group operates a fully automated heavy-duty plant producing FRP/GRP cable trays, including ladder and perforated types. Their trays are made from glass-armored thermoset fire-resistant resins, offering high corrosion resistance, electrical insulation, UV resistance, and low thermal conductivity. The plant manufactures a wide range of fittings such as bends, tees, reducers, and covers compatible with water, wastewater, and chemical storage applications.

Bahman Group, located in the Shuwaikh Industrial Area, is one of Kuwait's largest cable tray factories. It specializes in GI (galvanized iron) cable trays, ladders, trunking, and enclosures for local and GCC markets. The facility is equipped with modern machinery to produce cost-effective, high-quality products for infrastructure, hospitals, and university projects.

Almeer Industries has a manufacturing facility in Amghara Industrial Area, Jahra, producing ladder, perforated, and solid-bottom cable trays. Their products are UL certified and comply with NEMA VE-1 standards. Almeer offers trays in various materials including hot-rolled, cold-rolled, pre-galvanized, and stainless steel, with finishes like powder coating or painting.

The plant also produces cable trunking systems for indoor applications.

Features and Capabilities

Materials: FRP/GRP, galvanized steel, stainless steel, aluminumTray Types: Ladder, perforated, solid-bottom, trapezoidalFittings: Bends, tees, reducers, coupler plates, expansion plates, hold-down clampsCertifications: UL, NEMA VE-1, ISO 9001, ISO 14001, OHSAS 18001Applications: Industrial, commercial, oil & gas, power, water treatment, and infrastructure projectsAdvantages: Corrosion resistance, fire retardancy, electrical insulation, easy installation, and durabilitySummaryKuwait's cable tray processing plants, such as Alnafaa Group, Bahman Group, and Almeer Industries, provide comprehensive solutions for electrical cable management.

They produce trapezoidal and other cable tray types with advanced materials and fittings, meeting international standards for safety, durability, and performance. These facilities support large-scale infrastructure, industrial, and commercial projects across Kuwait and the GCC region.
