

Omani premium hot-dip galvanized cable tray price

Overview

Galvanized Cable Tray In Oman We offer top-notch Galvanized Cable Trays in Oman. These metal trays, coated with a special zinc shield, resist rust and last.

Key Takeaways

Premium hot-dip galvanized cable trays in Oman typically range from \$0.40 to \$2.25 per meter depending on size, load capacity, and order volume.

Price Overview

The cost of hot-dip galvanized (HDG) cable trays varies based on material thickness, tray type (ladder, perforated, or solid), and zinc coating quality. For bulk orders, unit prices can drop significantly. For example, suppliers like Zhonghe Steel (Tianjin) offer prices as low as \$0.

40 per meter for large-scale orders (50,000+ units), while heavy-duty outdoor trays may cost up to \$2.25 per meter for smaller or specialized orders.

Factors Affecting Price

Zinc Coating Thickness: Minimum 80 µm recommended for outdoor use to prevent corrosion. **Tray Type:** Ladder trays are ideal for heavy loads and ventilation, while perforated trays allow better cable management and heat dissipation. **Material Grade:** Steel quality and compliance with ISO 1461 or ASTM A123 standards influence durability and cost.

Customization: Length, width, and fittings can increase the price. Modular systems for future expansion may also affect cost. Shipping and Import Duties: International suppliers may include freight, customs, and local taxes in the final price.

Suppliers in Oman

Several local and regional suppliers provide premium HDG cable trays: Gulf Grating: Offers ladder and heavy-duty trays suitable for oil, gas, and industrial projects. Brilltech Oman: Supplies super-strong galvanized trays with corrosion resistance and customization options for industrial and commercial applications. Om Engineering Solution: Specializes in hot-dipped galvanized perforated trays for industrial and outdoor use.

Recommendations

Request sample trays to verify coating and structural quality before bulk purchase. Compare total cost of ownership, including installation, maintenance, and expected lifespan. Consider bulk orders to reduce per-meter cost by 15–30%.

Ensure compliance with local electrical codes and project load requirements. By evaluating these factors and contacting local suppliers, you can secure premium hot-dip galvanized cable trays in Oman at competitive prices while ensuring durability and compliance for industrial or commercial projects.
