

Price list of cable trays from Belgian factories

Overview

cable trays cable tray, perforated, permeable to extinguishing water, height = 60 mm
Belgian Steel Channel Cable Tray Price List Buyers & Importers. Sell.

Key Takeaways

Cable tray prices in Belgium vary by material, type, and supplier, ranging from approximately €0. 80 per unit for bulk B2B purchases to €34 for retail consumer products, with specialized trays costing more depending on specifications. Price Ranges by Purchase Type
Retail (B2C): Standard cable trays for small-scale use are priced between €15 and €34 per unit, suitable for home or office installations.

Wholesale/

Bulk (B2B): Prices can range from €0. 80 to over €76 per unit, depending on material, size, and load capacity. Bulk purchases are common for construction projects, data centers, and industrial facilities.

Specialized or Fireproof Trays: Stainless steel (SS 304) or fire-resistant trays command higher prices due to enhanced durability and compliance with safety standards.

Material-

Based Pricing

Galvanized Steel: Dominates heavy industrial and outdoor applications; strong and durable, typically mid-range in cost. Stainless Steel: Used in corrosive environments such as chemical plants or coastal areas; higher cost due to corrosion resistance. Aluminum: Lightweight and corrosion-resistant, commonly used in data centers and telecom; moderate to high pricing depending on size and finish.

Types of Cable Trays Ladder-Type: Ladder-like design with rungs; supports heavy cables and allows easy maintenance.

Wire Mesh/

Basket Trays: Open mesh design for ventilation; suitable for data and communication cables. Trough/Solid-Bottom Trays: U-shaped or solid-bottom for protection against dust and moisture; often used in industrial or outdoor settings. Single Rail Trays: Minimalist design for light cable loads; cost-effective for small installations.

Suppliers and Procurement Channels

Trayco: Belgian manufacturer offering customized solutions and project-specific quotes; specializes in cable trays, ladders, and mesh trays. Europages Listings: Multiple Belgian suppliers including Verco, Rittal, and EPC provide cable trays and related electrical materials; direct contact is recommended for exact pricing.

B2

B Platforms: Alibaba and other bulk suppliers offer competitive pricing for large-scale orders, often lower than local retail rates.

Market Considerations

The Belgian cable tray market is influenced by industrial modernization, renewable energy projects, and data center expansion, which can affect pricing for high-specification trays. Regulatory compliance with fire safety and electromagnetic compatibility may increase costs for specialized trays. Procurement is often project-based for large-scale developments or through MRO channels for maintenance and smaller installations.

For a complete and up-to-date price list, it is recommended to contact suppliers directly, request quotes for specific materials and tray types, and consider bulk purchasing options to optimize cost efficiency.
