

Price of Aluminum Alloy Splice Box for Power Fiber Optic Cables

Overview

Explore a wide range of our Fiber Splice Box selection. Find top brands, exclusive offers, and unbeatable prices on eBay.

Key Takeaways

The average price of an aluminum alloy splice box for power fiber optic cables is around \$33.95 per unit.

Aluminum alloy splice boxes, also known as OPGW (Optical Fiber Composite Overhead Ground Wire) joint boxes, are designed to protect spliced fibers from environmental damage, mechanical stress, and signal degradation while supporting high-speed data transmission over power lines. These enclosures are suitable for a variety of network setups, including rural, industrial, and high-density urban installations.

Key Features

- **Material:** Aluminum alloy for durability, corrosion resistance, and lightweight handling.
- **Capacity:** Available in configurations supporting from single-fiber splicing to high-density networks with 12-144 fibers.
- **Protection:** Waterproof, flame-retardant, and resistant to vibration, shock, and cable stretching.

- Applications: Ideal for overhead, duct, direct burial, and branch connections in power and telecom networks .

Pricing Considerations

- Bulk Orders: The listed price of \$33.95 is typical for wholesale or distributor purchases, particularly for standard waterproof metal fiber joint boxes .
- Customization: Prices may vary depending on fiber capacity, additional sealing features, or specialized mounting options.
- Market Variability: Prices can fluctuate based on supplier, region, and order quantity.

Summary

Aluminum alloy splice boxes provide a reliable, durable, and cost-effective solution for splicing power fiber optic cables. For standard units suitable for most installations, expect to pay around \$33.95 per box, with higher-capacity or customized models potentially costing more . Proper selection ensures long-term protection of fiber connections and efficient network performance.
