

Price of Standard 6-Core Single-Mode Optical Cable

Overview

6 Core Single Mode Fiber Optic Cable Buying Guide For 6 core single mode fiber optic cable, compare OS2 single-mode fiber, core count, jacket, outdoor rating.

Key Takeaways

A 6-core single-mode optical cable typically costs between \$0.30 and \$2.80 per meter, depending on specifications, jacket type, and manufacturer.

Price Range and Factors

The cost of a 6-core single-mode (OS2) fiber optic cable varies based on several factors: Material and Fiber Quality: Generic glass fiber is cheaper, while premium brands like Corning offer lower attenuation and higher reliability, increasing the price. Cable Construction: Outdoor-rated, armored, or LSZH (Low Smoke Zero Halogen) jackets add to the cost. Armored cables can range from \$1.

15 to \$6.50 per meter. Length and Quantity: Bulk orders or longer runs reduce per-meter cost, while small quantities or pre-terminated assemblies increase it.

Customization: OEM or project-specific requirements, such as color, logo, or connector type, can affect pricing and lead time. Installation Environment: Underground or harsh-environment installations may require additional protective features, slightly increasing material costs.

Typical Pricing Examples

Wholesale bulk purchase: \$0.09 to \$1.52 per foot (\$0.

30–\$5.00 per meter) for standard single-mode OS2 cable. Retail or pre-terminated assemblies: \$1 to \$6 per foot (\$3–\$20 per meter), depending on connectors and strand count.

Outdoor durable 6-core cables: CE-certified, G657A1/A2 fiber for aerial or FTTH use typically falls within the mid-range of these prices.

Additional Considerations

Project Requirements: Confirm fiber type, core count, jacket, outdoor rating, and connector plan before requesting a quote to avoid project delays. Lead Time: Custom orders may require additional time for tooling, sample approval, and packaging.

Long-

Term Value: Single-mode fiber offers lower long-term maintenance costs and supports high-speed, long-distance transmission. In summary, for a standard 6-core single-mode optical cable, expect \$0.30–\$2.

80 per meter for base materials, with higher prices for armored, pre-terminated, or customized options. Always request a detailed quote from suppliers to account for project-specific requirements and bulk discounts.

6 Core Single Mode Fiber Optic Cable Buying Guide

For 6 core single mode fiber optic cable, compare OS2 single-mode fiber, core count, jacket, outdoor rating, length, connector plan, test report before

How Much Does Fiber Optic Cable Cost? 2025 Factory Price Guide

On average, Single-mode (OS2) ranges from \$0.09 to \$1.52 per foot, while Multimode (OM3/OM4) can cost between \$1.50 and \$6.00 per foot. Factors like armor, jacket rating (LSZH), and raw material

Fiber Optic Cable Price Per Foot Guide 2026

Buyers typically pay a range for fiber optic cable per foot depending on fiber type, jacket, and shielding, plus installation considerations. This guide outlines typical cost ranges and the main

Cost of Fiber Optic Cable: Pricing Guide (2026)

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts total project costs overall.

6 Core Singlemode Fiber Optic Cables

Shop high-quality 6 core singlemode fiber optic cables for reliable data transmission. Perfect for outdoor and indoor use. Bulk orders and wholesale prices available.

Corning Freedm One, 6 Strand, Indoor/Outdoor ...

Corning Cable Systems FREEDM® One Cables are flame -retardant, UV-resistant, indoor/outdoor cables designed for aerial, duct and direct-buried applications with no need for a transition splice

Cisco 10GBASE SFP+ Modules Data Sheet

Cisco SFP+ Active Optical Cables (Figure 5) are direct-attach fiber assemblies with SFP+ connectors. They are suitable for very short distances and offer a cost-effective way to connect within racks and

Single-mode Fibers

What are Single-mode Fibers? Single-mode fibers (also called monomode fibers) are optical fibers which are designed such that they support only a single
