

Price of frameless network racks

Overview

Intellinet Network Solutions'' network cabinets and open frame racks present a versatile and all-encompassing solution for your network installation needs.

Key Takeaways

Frameless network racks typically range from £100 to £400 for standard wall-mounted or floor-standing models, depending on size, material, and features.

Overview

Frameless network racks are designed to hold IT equipment such as servers, switches, and patch panels without a fully enclosed frame, offering easier access and improved airflow. Prices vary based on height (U units), depth, load capacity, and additional features like lockable doors, ventilated panels, and cable management.

Typical Price Ranges

Small wall-mounted racks (6U-12U): £100-£200, suitable for small offices or workgroups. Medium floor-standing racks (18U-24U): £200-£300, often with adjustable mounting rails and basic ventilation. Large floor-standing racks (30U-47U): £300-£400+, designed for data centers with higher load capacity and optional accessories.

Factors Affecting Price

Material and Build Quality: Steel or aluminum construction, thickness, and anti-static coatings influence cost. **Load Capacity:** Racks rated for heavier equipment (up to 600-1000 kg) are more expensive. **Accessories:** Ventilated doors, cable management bars, and PDUs can increase the price.

Brand and Supplier: Premium brands like APC, RackyRax, and Startech may cost more than generic options.

Where to Buy

Cable Monkey: Offers a range of frameless and standard server racks with next-day delivery. Comms Express: Provides UK-assembled racks from multiple brands, including wall-mounted and floor-standing options.

Amazon U

K: Wide selection of network racks suitable for small to medium setups. Netbit: Offers 4U–47U racks with various depths and same-day dispatch. For precise pricing, it is recommended to check the supplier websites or request a quote, as prices can vary based on configuration, shipping, and optional features.
