

RF Unit Optical Module Fault Alarm

Overview

Common causes include hardware faults, link failures, resource shortages, configuration mismatches, and signal quality problems.

Article Content

BBU Alarm Overview for LTE Systems

Common causes include hardware faults, link failures, resource shortages, configuration mismatches, and signal quality problems. The descriptions provide

Troubleshooting Guidelines for Optical Modules

Remove and reinstall the optical module. If the fault persists, replace the optical module with a normal one of the same type to check whether the optical module is faulty. If the fault persists,

RF Unit Alarm Overview and Issues | PDF | Power Supply | Rectifier

The majority of alarms listed do not impact services, but some alarms related to carrier configuration errors, cell issues, board hardware faults, BBU optical interfaces, and local access maintenance

How To Clear RF Unit Optical Module Fault | Huawei BBU

This video content about, how to clear RF unit Optical Module Fault in Huawei BBU #HuaweiBBU #AdnanFarooq Description: This alarm is reported when the optical module or electrical...

Optical module alarm

Check the diagnostic information, which shows that the received optical power is low, with a threshold of -3 to -23.01, currently at -22.84. Once it exceeds the threshold, an alarm will be

Optical module common faults and solutions

In this article, we will focus on teaching you how to troubleshoot and solve the common three categories of optical module failure. First, the transmission class of the optical module fault

Alarm Troubleshooting

Default Severity: Major (MJ), Service Affecting (SA) Logical Object: PEM The Power Module Error (PM_VIN_VOLT_OOR) alarm is raised when there is an out of range input voltage issue on the

RF Unit CPRI Interface Error alarm in Huawei DBS 3900

Resolve RF Unit CPRI Interface Error in Huawei DBS 3900. Learn why SFP transceiver EEPROM settings cause bandwidth issues and how to fix them.

Troubleshooting Guidelines for Optical Modules

If the optical module type does not match the interface (fault ID: 136203), check whether the optical module rate is consistent with the interface rate. If the optical module fails to send signals

RF Unit DC Input Power Failures | PDF | Input/Output | Radio

RF Unit DC Input Power Failures This document lists hardware and software alarms related to an ECP board, RRH units, GPSR units, UMP, and RET units. It provides possible causes and remedies for

NodeB Alarm Management Overview | PDF | Power Supply

The document discusses various fault management alarms related to NodeB equipment. It provides a list of over 150 alarm codes (ALM-XXXXX), each with a brief description of the fault or issue

Huawei BBU CPRI Port Troubleshooting & Arrangements

As a result, the timing loop fails. 2-The user has run a command that block the CPRI port. 3-If the optical transmission is used, the optical module on the port of the BBU connecting to the lower-level RF

Troubleshooting Cell Unavailability Faults Due to Faulty Hardware

Run the DSP BRD or DSP BRDVER for query. Pay more attention to RF units. Yes: Rectify the board faults. Go to 2. No: Go to 3. 2. Check whether the cell fault is rectified. Yes: End. No: Go to 3. 3.

AN020: RF Module Troubleshooting Guide

The RF modules are half-duplex and it is deaf on UART when transmitting on RF. If the application processor does not wait for the module to be ready before sending next UART telegram, the UART

UK Full Manual

The Alarm head must be fitted onto the supplied Lock-In Base. The RF-Link (ES1RF2) module is supplied with the Alarm or available separately. The Alarm battery is sealed and non-replaceable.

BBU Alarm Overview for LTE Systems

This document contains descriptions for 43 service affecting alarms reported by a base station. The alarms relate to issues with baseband units, RF units, transmission interfaces, system clocks,

How To Handle "RF Unit Maintenance Link Failure" Alarm in ...

How to handle "RF Unit Maintenance Link Failure" Alarm in Wimax BTS - Free download as PDF File (.pdf), Text File (.txt) or read online for free.

How To Clear RF Unit CPRI Interface Error | Huawei BBU

The RF unit or peer device malfunctions, or the hardware is faulty. In multi-mode configuration, the inter-BBU connections are abnormal or the optical module used for inter-BBU connection is faulty.
