

Roofing cable tray manufacturers

Overview

Cable Tray Support As buildings house more and more devices and systems requiring Rooftop Cable Tray Support System PHP's cable tray support system is engi.

Key Takeaways

Leading roofing cable tray manufacturers include Walraven, SENYENERGY, Trayco, EAE Electric, and SFSP, offering durable, modular, and compliant solutions for rooftop cable management.

Key Manufacturers and Offerings

Walraven specializes in custom-designed cable tray supports for rooftops, providing stable and tailored solutions for structured cabling. They offer technical design support, on-site advice, and engineering consultation to ensure proper installation and durability in rooftop environments.

SENYENERG

Y focuses on solar cable trays for photovoltaic (PV) installations. Their systems are made from high-grade galvanized steel, stainless steel, or aluminum, featuring modular, ventilated designs that allow easy wire installation and heat dissipation. The trays are designed for durability, UV resistance, and quick assembly, reducing labor and installation time.

Trayco produces Belgian-made cable trays, mesh trays, and cable ladders. They provide customized solutions and project guidance, emphasizing optimization and consulting for cable support systems. Trayco is known for high-quality manufacturing and tailored advice for rooftop and industrial installations.

EA

E Electric offers medium and heavy-duty cable trays, including perforated, ladder, and wire mesh types. Their products are available in stainless steel, hot-dip galvanized, or epoxy-coated finishes.

EA

E provides modular systems, suspension accessories, and specialized solutions for reinforced concrete or steel structures, suitable for harsh rooftop environments.

SFS

P via Unitech manufactures cable trays and accessories compliant with international standards (BS EN, NEMA, CENELEC, ISO/IEC). They offer pre-galvanized, hot-dip galvanized, stainless steel, and aluminum trays in various thicknesses (1.0–2.

0 mm), designed for fast installation, durability, and cost efficiency.

Considerations for Rooftop Cable Trays

Material Selection: Choose galvanized steel, stainless steel, or aluminum for corrosion resistance and longevity. **Design Features:** Ventilated trays help dissipate heat; modular systems allow flexible layouts. **Load Capacity:** Ensure trays can support the weight and number of cables, including solar PV wiring if applicable.

Compliance: Verify adherence to local and international standards for safety and performance. **Installation Support:** Manufacturers offering technical guidance and on-site support can reduce installation errors and improve system reliability. These manufacturers provide a range of solutions suitable for both general rooftop cabling and specialized solar installations, ensuring durability, compliance, and ease of installation.

Article Content

Rooftop Cable Tray Support System

PHP's cable tray support system is engineered to sustain various sizes of cable runs on your rooftop. PHP is the leader in cable tray support systems.

Our Brands & Ranges

Steel, aluminium, PVC and GRP cable support systems and a full range of accessories – the extensive Niedax Group portfolio has the right solution for you.

Cable Tray Systems

Our aluminum, I-beam ladder cable trays feature 3-inch tangents and are using connectable with our fittings and accessories. Aluminum ladder cable trays

Trayco cable trays, cable ladders and mesh trays | Trayco

Trayco is specialised in producing and optimising 100% Belgian cable trays, mesh trays, cable ladders, mounting and floor systems. We also play an important role as advisor and guide

Cable Tray Systems

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative

Unipier Rooftop Supports

A Unipier base with Unistrut channel can easily be used to support roof-mounted electrical conduit, solar piping, cable tray, or other light-duty services. The supports are available with Unistrut from 12" to

Cable Tray Systems – Globe Electricals

We specialize in the manufacture of Tailor-Made Cable Tray Systems, confirming to Stringent National / International Standards, to the exact needs of the customer. We provide a range of accessories to

Cable Supports

Our Sales and Design Teams are more than happy to discuss bespoke and standard support options with you. Pre-fabricated, like all Roof-Pro supports, to save you time and improve efficiency on-site.
