

Standard Stainless Steel Cable Tray Prices

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Stainless steel cable trays in the UK typically range from £20 to £150 per meter, depending on size, grade, and type.

The cost of stainless steel cable trays depends on several key factors:

- **Material Grade:** 304 stainless steel is standard and slightly cheaper, while 316 stainless steel offers superior corrosion resistance for harsh environments, making it more expensive .
- **Tray Type:** Options include ladder trays, basket trays, and solid-bottom trays. Wire basket trays are generally lighter and more affordable, while heavy-duty ladder trays cost more due to thicker gauge and structural strength .
- **Size and Width:** Standard widths range from 50mm to 900mm. Wider trays or longer lengths increase the price .
- **Gauge and Duty Rating:** Light, medium, and heavy-duty trays differ in wire thickness and load capacity, affecting cost .

- Accessories: Bends, tees, risers, and couplers add to the overall system cost .

Typical Price Ranges

- Small wire basket trays (100mm width, 3m length, 304 stainless steel): approximately £20-£40 per meter .
- Medium ladder trays (300-450mm width, 3m length, 304 or 316 stainless steel): around £50-£90 per meter .
- Heavy-duty or large-width trays (600-900mm, 316 stainless steel): can cost £100-£150 per meter or more, especially for offshore or industrial-grade applications .

Purchasing Considerations

- Bulk Orders: Many suppliers offer trade or bulk pricing, which can reduce the per-meter cost .
- Delivery: Some UK suppliers provide next-day delivery or free delivery for orders over £100 .
- Environment: For outdoor, marine, or chemical-exposed installations, 316 stainless steel is recommended despite higher cost .
- Supplier Support: Companies like Cable Joints, RS Components, Direct Channel, and CMW Ltd provide technical support, datasheets, and configuration advice for complex installations . By considering material, size, type, and quantity, you can estimate costs accurately and select the most suitable stainless steel cable tray for your project.
