

Tanzania Unicom data center fiber optic cable price

Overview

Fiber Optic Cables in Tanzania for sale Prices on Jiji.co.tz Outdoor Armored 12 Core Fiber Optic Cable Single Mode (1m) EVI-GJPFJH-12B1 12-core fiber optic.

Key Takeaways

Fiber optic cable prices in Tanzania start from approximately TSh 2,300 per meter, with costs varying based on type, core count, and quality standards.

General Pricing Overview

Retail and wholesale fiber optic cables in Tanzania are available at a range of prices. On online marketplaces like Jiji.co.tz, basic fiber optic cables start from TSh 2,300 per meter. Prices increase for higher-quality cables, multi-core configurations, or specialized types such as armored or bend-insensitive cables.

Types of Fiber Optic Cables Single-mode fiber (G652, G655, G657): Ideal for long-distance data center connections. Multi-mode fiber (OM1, OM2, OM3, OM4): Suitable for shorter distances and high-speed intra-data center links. Armored cables: Provide extra protection for outdoor or high-risk installations.

Specialty cables: Bend-insensitive, laser-optimized, or custom multi-fiber assemblies for high-density setups.

Suppliers in Tanzania

Fiber Optic Tanzania Technologies: Offers a wide range of industrial-standard cables and assemblies, including SC, LC, ST, FC, and MPO connectors, with international delivery options.

Raddy

Fiber Manufacturing Tanzania Ltd: Produces high-quality outdoor and armored cables, patch cords, and connectors, serving telecom operators and commercial projects across East and Central Africa. Legrand Tanzania: Provides fiber optic solutions including panels, drawers, and connectors for data center applications.

Considerations for Data Center Deployment

Cable type and core count: Higher core counts and multi-fiber trunk cables increase cost but improve scalability. Indoor vs. outdoor use: Outdoor or armored cables are more expensive due to durability requirements. Compliance and standards: Ensure cables meet OS1/OS2 or OM series standards for performance and reliability.

Bulk purchasing: Large orders for data center deployment may reduce per-meter costs through supplier negotiation. For a Unicom data center, it is recommended to contact suppliers directly for custom quotes based on the required cable type, length, and installation environment to get precise pricing and delivery options.
