

Wall-mounted energy storage unit with 100kW output

Overview

The 100kW High-Voltage LiFePO4 Battery Energy Storage System is engineered for commercial solar projects, EPC installations, industrial facilities, and businesses that need reliable energy storage with intelligent power management. A 100kW system not only enhances energy efficiency but also provides stability and cost savings. At Maxbo Solar, we. Eitai 100kWh long-life wall-mounted battery adopts advanced lithium-ion technology, with ultra-long cycle life and stable energy output. Features a modular PCS design and front-access outdoor cabinet, enabling a reliable energy storage power supply, rapid deployment. Light weight, Small size, Long cycle life, using high-quality LiFePO4 Cells, the cycle life is as high as 6000 times Support RS485, RS232, CAN etc. Intelligent battery management system, all-round monitoring of battery pack system status, multiple protections. In the extreme performance safety. 100 kWh air-cooled battery energy storage cabinet combined with an external 50 kW hybrid inverter with 100 kW MPPT input capacity and diesel generator interface.
