# What size router should I use for indoor fiber optic internet

## Overview

The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious. Popular internet service providers (ISPs) such as Cox, Spectrum, Xfinity, and fiber-optic providers like AT&T offer faster Internet speeds for expansive home WiFi networks. Owning your router, modem router combo, or mesh WiFi system can help you take full advantage of your Internet plan and even. In this guide, I'll share my hands-on experience with the top routers that maximize fiber performance without breaking the bank. Disclosure: As an Amazon Associate, I earn from qualifying purchases made through links on this page. Future-proofing improves network longevity since Wi-Fi 6E and Wi-Fi 7 routers.
