

Where can I buy cable trays in Australia

Overview

Cable Tray for Electrical Installations | Ozstrut Contractors use cable trays to route and protect cables, keeping systems organised and compliant with Aust.

Key Takeaways

Cable trays in Australia are widely available from suppliers like Ozstrut, RS Australia, Rexel, MJS Electrical Supplies, and 4Cabling, offering a variety of types, materials, and sizes for commercial and industrial projects.

Major Suppliers and Options

Ozstrut offers a range of cable trays suitable for commercial and industrial installations, including perforated trays for light-duty applications, T3 trays for standard industrial use, and T5 trays for heavy-duty cable loads. Their trays comply with Australian Standards and are designed for fast installation and durability.

R

S Australia provides a comprehensive selection of cable tray systems, including ladder trays, wire mesh trays (cable baskets), trough trays, and single rail trays. They offer materials such as stainless steel, aluminium, and galvanised steel, catering to different project requirements.

R

S Australia also supplies complete kits and sections for easy installation, with options from top brands like Schneider Electric and Legrand. Rexel Australia stocks cable trays and ladders in popular sizes and brands suitable for electrical and construction projects, providing both standard and specialised solutions.

MJ

S Electrical Supplies offers aluminium, steel, and stainless steel cable trays in various widths (75mm, 100mm, 150mm, 300mm), along with accessories like cable ties, clips, and brackets. They focus on both economical and high-quality options for diverse installation environments. 4Cabling provides single and double-layer cable management trays in lengths of 500mm, 1000mm, and 2000mm.

They offer online ordering with free shipping on orders over \$50, making it convenient for smaller projects or quick delivery needs.

Choosing the Right Cable Tray

When selecting a cable tray, consider: Type: Ladder, perforated, wire mesh, trough, or single rail depending on ventilation, load, and cable protection needs. Material: Aluminium for lightweight and corrosion resistance, steel for cost-effective strength, stainless steel for chemical or high-temperature environments. Size and Load Capacity: Ensure the tray can support the number and type of cables in your project.

Compliance: Verify that trays meet Australian Standards for safety and installation. These suppliers provide both online ordering and delivery across Australia, making it easy to source cable trays for commercial, industrial, or residential projects.
