

Which Indonesian fiber optic splitter is the cheapest

Overview

Jual Fiber Optic Splitter Terlengkap Berbagai macam Fiber Optic Splitter lengkap & spesifikasi terbaru yang dijual dari Seller seluruh Indonesia yang bisa.

Key Takeaways

The cheapest fiber optic splitters in Indonesia are typically 1: 2 passive splitters available on Tokopedia and Shopee, with prices starting from very low ranges depending on the seller and promotions.

Overview of Affordable Options

Tokopedia offers a wide range of Splitter Fiber Optik 1: 2 products that can be sorted by the lowest price, making it easy to find the cheapest options. Many sellers provide promotions such as free shipping, COD, and installment plans, which can further reduce the effective cost. Shopee also lists splitter fiber optik at competitive prices, often with discounts, cashback, and free shipping options.

Users can filter by price to identify the most affordable splitters. Darmasakti.com provides FO passive splitters in various split ratios (1: 2, 1: 4, 1: 8, etc.) at relatively low prices. These splitters are passive, require no electricity, and are suitable for FTTH networks, making them cost-effective for long-term use.

Norden Communication supplies PLC splitters, which are reliable and low-cost solutions for distributing optical signals. While slightly more specialized, PLC splitters are available in multiple ratios and are competitively priced for network installations.

Tips for Finding the Cheapest Splitter

Compare marketplaces: Prices can vary between Tokopedia, Shopee, and specialized suppliers like Darmasakti.com. Check promotions: Look for free shipping, COD, or first-time buyer discounts. Choose the right split ratio: 1: 2 splitters are generally cheaper than higher ratios like 1: 16 or 1: 32.

Consider bulk purchases: Some suppliers offer lower unit prices for multiple pieces. In summary, for the lowest cost in Indonesia, a 1: 2 passive fiber optic splitter from Tokopedia or Shopee is usually the cheapest option, with prices starting at minimal levels depending on ongoing promotions and seller offers.
