

Wiring diagram for distribution box terminals

Overview

Hey, in this article we are going to see the Single Phase Distribution Box Wiring Diagram and Connection Procedure.

Key Takeaways

In a distribution box, circuit breakers are arranged from left to right, with neutral and earth terminals properly linked, and wiring follows standard color codes and organized routing for safety and efficiency.

Circuit Breaker Arrangement

Main MC

B: Positioned at the top or leftmost side, serving as the main switch controlling the entire supply.

Branch MC

Bs: Arranged from left to right, each controlling individual circuits such as lighting, sockets, or appliances. Reserved Positions: Typically placed on the right side for future expansion.

Terminal Connections

Neutral Link: All neutral wires from branch circuits connect to a common neutral bar.

Earth Link: All grounding wires are connected to the earth terminal to ensure safety.

Input/

Output Wiring: The input from the main supply connects to the main MCB, then to RCCB (if used), and finally to branch MCBs.

Wire Color Coding and Specifications

Phase Wires: A-phase yellow, B-phase green, C-phase red. Neutral Wire: Blue. Wire Size: 2.

5mm² for lighting and socket circuits; 2. 5mm² or 4. 0mm² for air conditioning or high-load circuits.

Wiring Direction and Organization

Incoming Wiring: Routed on the left side of the distribution box. Outgoing Wiring: Routed on the right side to branch circuits. Binding: Wires should be neatly tied with plastic ties, evenly spaced, and straight to prevent tangling and ensure heat dissipation.

Safety and Labeling

Marking: Clearly label AC/DC supply and voltage levels for each circuit. Inspection: Perform a safety check for short circuits, overloads, and proper insulation before powering the system. Maintenance: Keep wiring organized and accessible for future troubleshooting or expansion.

Following this arrangement ensures a safe, organized, and code-compliant distribution box, reducing the risk of electrical faults and facilitating easier maintenance.
